

The top half of the slide features a collage of four horizontal images with rounded ends. The first image on the left shows a server rack with blue lighting. The second image shows a person in a plaid shirt standing in a data center aisle, looking at a server rack. The third image shows a server rack with red and blue lighting. The fourth image shows a server rack with blue lighting.

Summary

This course enabled you to:

- Describe the specifications of the ThinkSystem SR530.
- Explain memory and storage configuration rules of the ThinkSystem SR530.
- Describe the support options of LOM, ML2, and PCIe adapters.
