

# Product overview: DE6400 and DE6600

New DE Series models released in December 2022

The Lenovo logo is a red rectangular block with the word "Lenovo" written vertically in white, sans-serif font.

Lenovo

## DE6400 and DE6600 product overview

The DE6400 (machine type 7DB6) and DE6600 (machine type 7DB7) storage arrays are 2U, 24-drive storage enclosures with support for all-flash NVMe drives.

The DE6400F and DE6600F support the DE240S expansion shelves with SAS SSDs only. The DE6400H and DE6600H support the DE120S, DE240S, or DE600S expansion shelves with SAS HDDs or SSDs.

Unlike the DE2000, DE4000, and DE6000 storage arrays, the DE6400 and DE6600 enclosures use the same 2U enclosure as the ThinkSystem DM5100F, but the management console interface is the same as that used on other DE Series storage arrays.

Lenovo

ThinkSystem DE Series  
Maintaining DE6400 and DE6600

Components	Status	Description
1 Power LED	Solid green	One or more power supplies are delivering power to the shelf.
	Off	No power supply is delivering power to the shelf.
2 Attention LED (front)	Solid amber	There is an error with the function of one or more of the following: shelf, drives, IOMs, power supplies, or fans.
	Off	The system is operating normally.
3 Location LED (front)	Solid blue or blinking blue	The shelf location LED is manually activated to help locating the shelf. <b>Note:</b> The location LED turns off automatically after 30 minutes.
	Off	The location LED is not activated.
4 Shelf ID digital display	Number displayed	Display the digital shelf ID.
