System board replacement

Replacement procedure

Lenovo

Field service action – system board replacement

For more information about how to replace a system board, refer to the following Lenovo Docs page:
[SE100 Procedure for replacing the system board](#)

Technicians are required to update the public key after replacing a system board. For more information, refer to the *Field service action - system board replacement* section in course [ES72507B – Servicing the ThinkEdge SE350 V2 and ThinkEdge SE360 V2](#).
